CONTENTS

Volume 23 1980

Number 1

Apparent trends of mean temperature in New Zealand since 1930	J. W. D. Hessell	1
Nitrogen availability in some soils from tussock grasslands and introduced pastures. 5. Influence of standing dead material and roots from five tussock species on nitrogen mineralisation	D. J. Ross and Annette Cairns	11
Characterisation and comparative classification of soils of a catena from loess, East Taieri, Otago, New Zealand	D. M. Leslie	19
The air spora of Auckland city, New Zealand. 1. Seasonal and diel periodicities	S. R. Pennycook	27
Flavonol glycosides of tall fescue	Edmon Wong	39
The nutritional composition of some New Zealand marine fish and shellfish	J. T. Hughes, Zofia Czochanska, L. Pickston, and E. L. Hove	43
Oxygen-blown entrained-flow gasification of wood	W. J. Cousins	53
Changes in leaf protein concentrates on storage	Alison J. Gibson and G. M. Wallace	59
Plane-tree anthracnose disease and climate	L. A. Hitchcock and A. L. J. Cole	69
Air temperature near a hydro lake at Roxburgh, New Zealand	J. Salinger and B. B. Fitzharris	73
Arsenic from geothermal sources in the Waikato catchment	J. Aggett and A. C. Aspell	77
Soil changes under radiata pine in Kaingaroa Forest, central North Island, New Zealand	P. D. McIntosh	83
The drop-cone penetrometer method for determining Atterberg limits	R. F. Allbrook	93
A sunspot–auroral Solar Index from 522 B.C. to A.D. 1968	J. R. Bray	99

Number 2

Bacterial quality of paua (*Haliotis iris*) collected from waters of various degrees of sewage contamination: Preliminary findings	**F. M. Patrick and T. H. Kendrick**	**107**
A case of intense cyclogenesis in the Tasman Sea	**H. W. Hill**	**111**
A holding board for stereoscopic viewing of aerial photographs	**J. G. Bruce**	**129**
Carbon dioxide: Its role in geothermal systems	**W. A. J. Mahon, G. D. McDowell, and J. B. Finlayson**	**133**
Geochemistry of the Puchuldiza and Tuja hot springs, Chile	**W. A. J. Mahon and H. Cusicanqui**	**149**
Trace metal and organochlorine pesticide residues in New Zealand farmed oysters: A preliminary survey	**R. V. Winchester and D. L. Keating**	**161**
Storage of live Pacific oysters out of water	**N. S. Boyd, N. D. C. Wilson, and Bronwyn I. Hall**	**171**
The microbiological purification of xylitol from mixtures of polyols prepared from hydrogenated *Pinus radiata* hydrolysates	**R. Bielby, I. H. C. Gallagher, and J. Craig**	**177**
The effect of fluoroacetate ("Compound 1080") and fluoride upon duckweeds	**Miss Bong Chui Lien, John R. L. Walker, and J. A. Peters**	**179**
A solution of Poisson's Equation	**A. McNabb and G. J. Weir**	**185**
A stone Row System at Okoropunga on the southeast Wairarapa coast and inferences about coastal stone rows elsewhere in central New Zealand	**B. G. McFadgen**	**189**
Osmotic and ionic composition of a tropical freshwater mussel *Batissa violacea* Lamarck (Lamellibranchia: Sphaeriidae)	**Uday Raj and J. E. Fergusson**	**199**
An analysis of New Zealand's rainfall	**R. G. Vines and A. I. Tomlinson**	**205**
Evaluation of multispectral aerial photographs for the recognition of land resource features	**P. R. Stephens and M. J. Page**	**217**

Number 3

Sulphur in New Zealand soils. 2. Sulphur levels in New Zealand soil groups	**L. C. Blakemore and A. J. Metson**	**225**
Evaluation of a physiological method for measuring microbial biomass in soils from grasslands and maize fields	**D. J. Ross**	**229**
Stable isotope study of thermal and other waters in Fiji	**Malcolm E. Cox and John R. Hulston**	**237**
Measurement of evapotranspiration under wheat in Canterbury by monitoring soil moisture fluxes	**Richard W. Heine and Kwan Shig Ryu**	**251**
Phytol: its metabolic products and their distribution. A review	**R. P. Hansen**	**259**
An interlaboratory study of slaughterhouse effluent: Chemical oxygen demand, total Kjeldahl nitrogen, and ammonia nitrogen	**J. M. Russell**	**277**
Examples of wind shear and temperature inversion surfaces over Christchurch	**A. D. Surridge**	**283**
The heat balance in spontaneous ignition. 10. Linear temperature coefficient of thermal conductivity	**I. K. Walker**	**289**
Heavy metal pollution by traffic in Christchurch, New Zealand: Lead and cadmium content of dust, soil, and plant samples	**Jack E. Fergusson, Rodney W. Hayes, Tan Seow Yong, and Sim Hang Thiew**	**293**
The lead content and acidity of Christchurch precipitation	**D. J. Stevenson**	**311**
The reactivity of chars from Waikato coals	**D. J. Watson and V. R. Gray**	**313**
A modified radiosonde for use in the boundary layer	**Nigel J. Tapper and Andrew P. Sturman**	**319**
A mathematical model of an intermittently used, insulated hot water pipe	**S. P. J. Matthews and G. J. Weir**	**323**

Number 4

The effects of fine suspended solids on coliform estimations in seawater using membrane filtration	**F. M. Patrick and T. H. Kendrick**	**329**
Clay for brick-making: A study of the suitability of the soils of the Pacific Islands	**G. G. C. Claridge and H. J. Percival**	**335**
A point-intercept method for determining and displaying forest soil variability	**G. Mew, M. D. Laffan, and D. A. Rhoades**	**343**
The influence of helicopter flights on surface (1.5m) air temperatures under inversion conditions	**Richard W. Heine and David S. Wratt**	**353**
Resistance of male gamete function to ionising radiation: Implications in evolution and in induced transformation in higher organisms	**K. K. Pandey**	**361**
Estimation of tutin and hyenanchin in honey. 4. Comparison of a new gas chromatographic method with intracerebral injection of mice	**W. H. Swallow, J. F. Curtis, P. G. Clinch, and J. C. Turner**	**365**
Water-degradable sulphur/anhydrite pellets for fertiliser use	**H. P. Rothbaum, J. R. Sewell, and W. Evason**	**371**
Selenium content of a stream in the central North Island after catchment topdressing with Se-prills	**J. H. Watkinson and F. C. C. Hupkens van der Elst**	**383**
Characterisation of municipal sewage and meat works effluent discharges into the Manawatu River	**J. G. Cooke, R. W. Tillman, and J. K. Syers**	**387**
Phosphate sorption isotherms of South Pacific soils	**A. J. Dandy and R. J. Morrison**	**399**
Radioactivity of potable waters in New Zealand	**L. P. Gregory**	**407**
Author index		**415**
Subject index		**417**
